

Diagram illustrating the relationship between molecular weight (MW) and the number of molecules (n). The top part shows a polymer chain with segments labeled 'MW' and 'n'. The bottom part shows a single molecule with segments labeled 'MW' and 'n'.

A schematic diagram of a linear polymer chain. The chain is represented by a horizontal line with several loops and segments. The segments are labeled with 'M', 'W', and 'n'. The 'M' segments are the largest and are located at the ends of the chain. The 'W' segments are smaller and are located in the middle of the chain. The 'n' segments are the smallest and are located at the very ends of the chain.
